STATEMENT

In order to ensure compliance with the rules adopted by the Federal Communication Commission to protect customer proprietary network information ("CPNI"), Beehive Telephone Company, Inc. and Beehive Telephone Co., Inc. Nevada ("Beehive Telephone Companies" or "Companies") have established the following operating procedures.

- The Beehive Telephone Companies have implemented a system whereby the status of a customer's CPNI approval can be determined prior to the use of CPNI.
- The Companies continually educate and train their employees regarding the appropriate use of CPNI. They have established disciplinary procedures should an employee violate their CPNI procedures.
- The Companies maintain a record of their sales and marketing campaigns that use their customers' CPNI. They also maintain a record of any and all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign.
- The Companies have established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and they maintain records of their compliance for a minimum period of one year. Specifically, sales personnel must obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI.
